1. As per our conversation I am forwarding herewith 3 copies of [] trip report. I thought that you, Gene Kiefer, [] and perhaps Mr. RMB would be interested in it.

2. I would call your attention in particular to the recommendations listed. I believe all of them are in order except perhaps Recommendation C. I would suggest that you consider these things most carefully as I believe they could have an important relationship to our hoped for success in this area.

3. If any higher classification is required on this piece I would ask you to apply it. Otherwise the Eyes Only may be sufficient to cover it.
